Pei-Pei Champion has enabled students not only to learn and memorize (pronounce, restate and write without assistance) the most important sounding systems (including thirty seven phonetic Zhuyin/BoPoMo symbols-the most basic and common components of both traditional and simplified Chinese characters, Japanese Kanji, classical Korean Hanjia, and Romanized Hanyu Pinyin) but twenty-six English lower-case letters in only two to five hours of intensive learning. This enabled students to master these systems and start sounding out, pronounce Chinese characters and reading Chinese materials noted with either one or both of Zhuyin and Hanyu Pinyin symbols in about two to six hours.

Comments by Media:

- Mark Jahne, West Hartford Life: “Champion Chinese©” has taken the difficulty out of learning Chinese- this centuries-old language.”
- Warren Iwasa of Hawaii Herald also noted: “Champion BoPoMo & Hanyu Pinyin has set a new standard in world's Chinese language teaching and learning.”

She is now a writer and frequent speaker and workshop conductor on the topic of Chinese Language Teaching & Learning at domestic and international conferences.
